GAME RULES

1 Making Monsters Disappear

Toad's goal is to rid the woods of monsters. You can help him by arranging three or more monsters and bombs of the same color in a vertical, horizontal or diagonal line. The bomb(s) in the line will explode and take the monsters with them.

2 Selecting Rounds

When all of monsters on the screen are gone, the round will be clear and you'll move on to the next challenge!

3 Game Over

If the field is completely filled with monsters and bombs, with no room to move, the game will be over!

4 Toad's Escape

When Toad is surrounded by monsters, you can move up by pressing \uparrow on the control pad or by simultaneously pressing the A and B Buttons.

5 Creatures of the Woods

The Sprite tosses bombs into the playing field in order to help Toad clear the area of monsters. The Black Bat throws more monsters into the area, Wario shakes the trees and makes the ceiling sink.

Bomb Time: The Sprite spits bombs and the ceiling stays up.

Monster Time: The Black Bat spits monsters. Wario makes the ceiling fall.

6 Chain Reactions

When one match of bombs and monsters leads to another match as the pieces fall into place, the chain reaction will cause Bomb Time to increase and Monster Time to decrease.

7 Making Diamonds

When you make a match involving five or more monsters and/or bombs (with at least one bomb in the match), a diamond will appear. By placing together a match with that Diamond, you will make all of the monsters that are the same color as the diamond disappear from your playing field. Diamonds appear in random colors and they can't be moved.

- ◆ This example is for when five monsters or more in a single row are wiped out. The diamonds appear in different colors at random.

8 Raising the Roof

Wario pushes the ceiling down when he appears. The following are techniques that you can use to push the ceiling to the top of the playing field:

- Make a diagonal match of three pieces. → The ceiling will go up one row.
- Make a match of four pieces in a vertical, horizontal or diagonal line. → The ceiling will go up two rows.
- Make a match of five pieces in a vertical, horizontal or diagonal line. → The ceiling will go up three rows.
- Make a match of six pieces in a vertical, horizontal or diagonal line. → The ceiling will go up four rows.

* You can also make the ceiling rise by making matches with diamonds.

HOW TO MAKE MONSTERS DISAPPEAR

If the following conditions are followed, and if you have one or more bombs in the match, these monsters will disappear:

Fuzz

Arrange three or more pieces in a vertical, horizontal, or diagonal line.

Spud

Arrange three or more pieces in a vertical, horizontal, or diagonal line.

Squeak

Arrange three or more pieces in a vertical, horizontal, or diagonal line.

Beaker

These monsters only disappear with diagonal matches.

Scram

These monsters only disappear with diagonal matches.

Spook

Arrange one match to make this monster flash. As the enemies are flashing, arrange another match to make it disappear.

Dove

Arrange one match to make the color of this character change. Arrange another match to make it disappear.

Story

The Peaceful Woods were once a friendly home for sprites and gentle creatures. Since the invasion of Wario and his band of monsters, though, this quiet community has been turned upside-down. Now, it is Wario's Woods and peaceful creatures are not welcome.

Toad, the Mushroom Kingdom hero, has made his way to Wario's Woods in order to quiet the sinister lout and win the woods back for the sprites. The sprites can create bombs. It's Toad's job to take the bombs and line them up with the enemies of the woods so that the enemies go down in defeat.

If Toad clears enough monster-packed sections of the forest, he'll go up against the mighty Wario himself.
