Our story begins...

in the 1930s, a period regarded by many as the Golden Age of Animation. Many studios in Hollywood were pumping out reels and reels of new cartoons. During this time, one of the more eccentric and gifted animators at Warner Bros. created the Warner brothers and the Warner sister—specifically, YAKKO, WAKKO and DOT.

From the beginning, however, these three were labeled too wacky, too wild and just too zany to be let loose on an unsuspecting public. Their comical genius was too far ahead of the times. Behind top-secret closed-door meetings, the studio executives, vice presidents, managers, managing vice presidents, chief executive vice directors of managing, and some people who were really important, decided to lock them up immediately in the Warner Bros. Water Tower.

They remained imprisoned in that water tower for over 60 years, when they escaped! As soon as they got out, the Warner brothers and their sister immediately began to amuse themselves by wreaking havoc upon film stages all across the studio lot.

One day, they found something even more entertaining to do. They decided to collect various items used in movies from Warner Bros. Studio and open their own "hip pop culture" shop. Join them now as they pursue their "life's dream" of the day.

Who are the Animaniacs?

So glad you asked! If you haven't met them, then you're in for a treat. Here is a brief look at this lovable, wacky trio...

Yakko

He's a born leader, a fast-talker and an ideal big brother. Yakko takes the lead in one off-the-wall Animaniacs adventure after another. His zingy one-liners and comical cool make him appeal to the lunatic in all of us. Yakko is seen here sporting a cool pair of khaki Perry Alias slacks. Great for tropical cruises and nurse chasing... and a handy place to store his paddleball.

Wakko

The youngest brother. He has unlimited slapstick energy and an appetite for pranks—and anything else he can fit into his mouth! His wacky antics make all but the most stuffy studio executives crack-up. Wakko is easily recognized by his red cap, his cockney accent, and his huge mallet!

Dot

She's the cute one. Really. If you don't believe us, then just ask her... she'll be glad to tell you. She has a sassy spirit and witty sense of humor. She'll light up almost anyone's face with a quick kiss and a big hug. Her dream date includes a certain Mr. Lethal Weapon... if she can ever catch him.

Starting up your system

Playing the game

Use each of the Warner brothers' (and sister's) special skills to advance through the game. One player operates the game as one of the three main Warner characters, and the other two characters tag along. The player (that's you!) switches between these characters depending on the trap to be avoided...or conquered.

Each stage is divided into several sections. You solve puzzles and avoid traps to clear each stage and advance to the next.

The damage to each character is displayed on the face of the character in play. A character loses one life when he (or she) falls off the screen or has been too damaged to continue.

If you have any lives left, your character must start over at the beginning of that section.

When there are no remaining lives, the game ends and the player can select Yes or No on the Continue screen.

Starting the game

Press the Start button to skip the opening demo and go to the Title screen. Use the Direction button to move the director's cue board to the desired selection.
