THE WORLD OF CHRONO TRIGGER

Living in the seemingly peaceful kingdom of Guardia in 1000 A.D., the child CRONO was chosen by guardian spirits to save the world from ultimate devastation. Though Doomsday will not happen until the year 1999, the ancient seeds of destruction were planted long ago by the evil LAVOS. Your mission in the world of CHRONO TRIGGER is to travel back and forth through time to

change the course of history, and stop Lavos from succeeding in his dark plan. On your journey, you will battle monsters and meet many helpful people in both the past and the future. Some will become your faithful and powerful companions, while others will give you clues by telling you stories. Pay attention to what they say, and good luck in your adventure.

PRESENT

In 1000 A.D., beneath the surface of peaceful surroundings, monsters from the past are scheming to destroy the world while residents, unaware of the approaching peril, celebrate in the kingdom of Guardia.

FUTURE

In the future, 2300 A.D., the world has almost been destroyed by the evil Lavos. Those who survive are hungry, hurt, and hopeless. Find out how to help them, because the future of the world depends on you.

PAST

Back in 600 A.D., humans are at war against monsters controlled by the evil Prince of Darkness. He has already defeated many Guardia knights, so in order to help them, you must travel even further back - to 65 Million B.C. - when Lavos first arrived on earth.

CAST OF CHARACTERS

In each of the eras Crono travels to, he will be joined by interesting new friends. Each of them has different special abilities.

CRONO

Crono is a typical teenager whom fate chooses to save the world. He is a skilled swordsman, and as he journeys on, he learns Lightning Magic spells.

MARLE Marle is actually Princess Nadia of Guardia Castle. She grows impatient with royal life and eventually leaves to help Crono. She is good with a crossbow, and learns Water Magic during the adventure.

LUCCA

Lucca is Crono's best friend. She loves science and uses her knowledge to build fantastic machines and very clever weapons. Eventually she learns Fire Magic, a very useful skill.

FROG

Frog, once a Guardia Knight, was beaten very badly and turned into a frog. He is an accomplished swordsman who also uses Water Magic well.

You find Robo in a collapsed dome in 2300 A.D., trying to remember his master's directions. He is very powerful and skilled with electric weapons.

ROBO

AYLA

Ayla is primitive but strong. She is trying to save her group from the reptites. She can break huge stones with a punch or a kick. With her strength, she doesn't need to use magic.

ADVENTURE GUIDE

Prepare to embark on a journey of the ages. You will meet many people and see many wondrous things. Use this guide to help you in the beginning.

THE ADVENTURE BEGINS!

At present in the Kingdom of Guardia, monsters and humans co-exist with each other in peace and harmony. Today they celebrate their kingdom.

1000 A.D.

THE KINGDOM OF GUARDIA

GOOD MORNING, CRONO

The scene opens with Crono's mother trying to wake him. Today is the day of the big fair and she doesn't want him to miss it.

You can stay in Crono's room any time for free.

When mother mentions Lucca, you will have the opportunity to change Lucca's name if you wish.

Go to the far right to find a power tab.

VISIT HOUSES

Walk around to all of your neighbors' houses and talk with them. They will have information you may need for your journey.

Walk up to the house and push A; this allows you to enter.

There are people at the Mayor's house with important things to tell you.

This strange box will not open for you... yet. Come back later!

GO TO GUARDIA FOREST

The forest is full of monsters. If you leave them alone they will not bother you. However, to build your levels you should battle them.

Run into these monsters and they're ready to fight.

Continue battling to build up your levels.

Go to the far right to find a power capsule.

THE CASTLE OF GUARDIA

Right now you can't enter the castle. You'll need to come back later.

The guards will not let you in.

VISIT LEENE SQUARE

Today there is a big fair in Leene Square. Go there to check things out and talk to people. Don't forget about the invention Lucca wanted to show you.

Many games are going on at the fair. Check them all out.

MINI GAME 1 GATO

This game is with Gato the Singing Robot. If you fight him and win, you will receive 15 silver pieces.

Step right up and enter the ring.

Fight with a group to raise your levels.

MINI GAME 2 FOOT RACING

This is a game of chance. Bet on the runner you think will win and pick up some silver points.

Go to the race tent to bet.

Ask the old man first; he'll tell you who might win.

Push A.

When you are all the way back, push A again.

MINI GAME 3 HAMMER CHALLENGE

Hit the base and ring the bell to win.

MINI GAME 4 GUZZLING CONTEST

How many cans of soda can you drink in the allotted time?

Push A as fast as you can.

Drink all 8 cans to win.

MINI GAME 5 SHOW TENT

Save your game before you go in. There are three attractions; the second will reward you with a useful item.

Enter the tent at your own risk.

Tell Mr. Bekkler which game you want to play.

CRONO MEETS MARLE

You are so impressed with the fair, you don't notice the girl in front of you and bump into her!

You bump heads.

You are given the option to change Marle's name if you wish.

Marle wants to stop and shop.

SAVE OFTEN

It is very important that you save your game often. At this point save your game.

MEET LUCCA

When you find Lucca, she and her father are trying to demonstrate their teleportation device. No one will try it. If you want to try, stand on the left platform. Remember to save first.

Lucca lets you in on what's going on.

You give it a try for Lucca.

Marle also wants to give it a try.

A Time Gate opens and swallows her up.

You need to go after her!

You are also pulled through.

Crono is gone...but where?

THE ADVENTURE CONTINUES!

Now is the time for the real adventure to begin. You are sent to the past, and although you are still in Guardia, it is different.

600 A.D. THE KINGDOM OF GUARDIA

WHERE IS THIS !?

When you arrive you have no idea what era you are in.

You land on a mountain in Guardia Kingdom.

Your first battle will most likely be with these little blue creatures.

GET INFORMATION

The best way to find out where you are is to ask around. Just be nice and people will let you know.

When you exit the mountain, look for people to talk with.

Be careful what you say. People might think you are crazy.

Go shopping and stock up on necessary supplies.

Go to the Inn and rest.

Talk to Toma and he'll give you helpful information.

Go to the bridge and see what's happening.

EQUIP NEW WEAPONS A.S.A.P.

Equip items as you buy them, that way you will be well protected and perform at your full potential.

GUARDIA FOREST

To make your way to Guardia Castle, you must first go through Guardia Forest. The monsters in this area are not friendly. Be ready for battle.

Monsters may be waiting for you - be ready.

THE CASTLE OF GUARDIA

When you get to the castle the guards won't let you in. The Queen tells them to do so.

The Queen will meet you at the stairs.

The Queen's guard will take you to her.

Keep your eyes open for treasure boxes throughout the castle.

Marle (disguised as the Queen) dismisses her staff so no one becomes suspicious.

SEARCH FOR MARLE

Out of nowhere comes a blue flash of light, and Marle disappears once again. Now what? Lucca arrives in the nick of time.

The light flashes and Marle disappears.

Just when you thought you had no friends, Lucca appears.

Walk around and talk to everyone to figure out your next move.

SEARCHING THE CATHEDRAL

Something weird is going on in the cathedral. Talk to the sisters.

The sister near the organ is the key.

FROG APPEARS

Frog is the Queen's guard and has come to the cathedral to save her. He will also save you from the monsters.

Frog is very proper and galant.

Play the organ and a door will open.

Go through the door and you will find the Queen.

Go to the skull switch and push it. The spikes will vanish.

OPEN THE HIDDEN DOOR

You will soon come across a message on the wall. There is actually a door here, but you must hit the switch to open it.

Find the message. In the wall next to it is a hidden door.

Hit the skull switch and the spikes will again disappear.

After you beat the guards, play the organ.

The hidden door has now been opened.

Now you must fight the evil Chancellor.

BEAT THE FIRST BOSS

Make sure you save your game before you battle the Chancellor.

The Chancellor is actually an evil monster posing as a human. Beat him and get the Queen back.

He will transform to his true self - an evil monster.

Use your Tech attack to fight the Chancellor.

Also use your Combo attack to fight him.

Combo attacks are very effective against him.

If your Hit Points get too low, use Tonic to refill.

QUEEN: You came to rescue me! Thank you Frog.

After you win, you will meet the Queen.

CANT BEAT THE BOSS?

If you are having a problem beating the Chancellor, your levels are too low. Go to the forest and build them up.

BACK TO THE FUTURE

Now it's time to head back to 1000 A.D. Go back up the mountain and find the Time Tunnel. From there you will return home. This has been a very small part of your journey. Good luck with the rest.

Marle thinks maybe the group should go back to the future.

These three people think Marle looks very much like the Queen.

CASTLE AGAIN

Go back to the castle and talk to everyone. When you've learned everything, you're ready to go back to 1000 A.D.

When you return, everyone is very grateful that you have saved the Queen.

Watch out for monsters - they are still around.

MULTI-ENDING

Depending on where you are when you defeat the final boss, you will get a different ending. Below are some examples of what they may be.

ENJOY THE GAME!
