## SUNSOFT® Limited Warranty

SUNSOFT® warrants to the original purchaser only that the Game Pak provided with this manual and the software program coded on it will perform in accordance with the descriptions in this manual when used with the specified equipment, for a period of 90 days from the date of purchase. If the program is found defective within 90 days of purchase, it will be replaced. Simply return the Game Pak to SUNSOFT® or its authorized dealer along with a dated proof of purchase. Replacement of the Game Pak, free of charge to the original purchaser (except for the cost of returning the cartridge) is the full extent of our liability.

THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED. ALL IMPLIED WARRANTIES, INCLUDING THOSE OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, IF APPLICABLE, ARE LIMITED IN DURATION TO 90 DAYS FROM THE DATE OF PURCHASE OF THIS PRODUCT.

SUNSOFT shall not be liable for incidental and/or consequential damages for the breach of any express or implied warranty including damage to property and, to the extent permitted by law, damages for personal injury, even if SUNSOFT has been advised of the possibility of such damages. Some states do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions do not apply to you.

This warranty shall not be applicable to the extent that any provision of this warranty is prohibited by any federal, state or municipal law which cannot be pre-empted. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

## "BEEP! BEEP!"

And they're off . . . In the most hilarious action adventure chase of the century starring the Road Runner and Wile E. Coyote. Road Runner's Death Valley Rally features 20 levels of cartoon-like graphics and hilarious game action that will leave you wanting more. Wile E. Coyote will challenge you with crazy antics involving TNT, catapults, rocket skates and more — courtesy of ACME, of course. As the Road Runner, you must jump ravines, pick up power-ups and peck to disable wacky contraptions to avoid danger at turbo-speed.

## HOW TO START THE GAME

Insert the Road Runner's Death Valley Rally Game Pak then turn the system ON. A short demo screen will appear. Press the Start Button to see the beginning game stage screen. To cut straight to the chase, press the X-Button during the game stage screen to begin game play.

## HOW TO USE THE CONTROLLER

**Left Scroll:** "Beep! Beep!"

**Right Scroll:** "Thup Thup"

**Control Pad:** Left — Moves character to the left  
Right — Moves character to the right  
Down — Duck

**Control Pad Up + Left Scroll =** Jump and "Beep Beep"

**A Button:** Peck to attack  
Peck to pick up bird seed

**B Button:** Jump

**X Button:** Not Used

**Y Button + Control Pad Left or Right =** Turbo Speed

**Start:** Starts and Pauses game play

**Select:** Not Used

# ENEMIES AND ATTACK METHODS

## PECKING

Throughout each level you will encounter many enemies that move along the ground. To eliminate them from the game play screen press the A Button to peck at them. However, you must be within close range of the enemy before pecking.

## SKIDDING

Another way to eliminate enemies is to skid into them. To perform the skid attack, press the Control Pad Left or Right until you are running, then press the Control Pad in the opposite direction you were running to slam on the brakes. Any enemy that lies in your path will automatically be eliminated from the game play screen. Be sure you know where the enemy is located before running. Otherwise, you will run right into it and lose health meter increments.

## TURBO SPEED

Pressing the A Button while running will activate Turbo Speed. The amount of Turbo Speed you have to use is located in the gauge at the top left corner of the game play screen. Picking up bird seed will help to fill up the Turbo Speed Meter. When running at Turbo Speed you become invulnerable to enemies and their attacks. Additionally, it will allow you to jump further and run upward at angles that normally would take added effort.

## OTHER POINTS TO NOTE

Ground obstacles that block the pathway forward (i.e. cacti, spikes, etc.) must be avoided by jumping over or dodging them without getting hit. They cannot be destroyed by pecking or skidding.

Obviously, your main enemy is Wile E. Coyote. He will stop at nothing to see that you become his next meal. During every level he will scheme to trap you with a number of amusing antics. As the Road Runner, you must avoid him and his wacky contraptions while you search for flags, items and check points. Wile E. Coyote is not affected by pecking or skidding. He must be avoided by jumping and dodging. Only after reaching each sub-level check point, is Wile E. Coyote thwarted . . . for a matter of time. Rest assured, in the following levels he will return with more difficult ACME gadgets for you to outrun.

## ITEMS

### BIRD SEED

- Peck to pick up
- Adds energy to speed gauge

### 1 UP

- Adds one extra life

# 500

### 500

- Adds 500 points to your score

### PARACHUTE

- Once landed, peck to open
- Any of the above items could be enclosed (Except Bird Seed)

### CLOCK

- Freezes all enemies and time for a short period of time

### HEART

- Fills up health meter

### SHIELD

- Invincibility for short period of time

## TIME

A time limit has been added to make the chase even more exciting. You have 5 minutes to complete each sub-level. If you successfully complete the sub-level with time left over, bonus points are added to your score. If you do not complete the sub-level within the time limit, no bonus points will be given but the game will still continue.

## POINTS

During game play, points are accumulated by eliminating enemies and finding flags. Once a sub-level is completed, extra points will be allotted during the bonus screen. You will be awarded 1 extra life for every 50,000 points earned.

## BONUS SCREEN

At the end of every sub-level (except Boss levels) a bonus screen will appear. Bonus points are given for remaining time and remaining speed left in your Turbo Speed Meter. The screen will also reveal how many different colored flags were in the sub-level and how many you actually found. For every flag found 100 points will be given.

If all flags are found, 10,000 bonus points will be awarded in addition to 100 points for every flag.

## FLAGS

Dispersed among the levels are different colored flags that you must find in order to accumulate points and continues. For every 20 flags found, you will receive 1 continue option at the end of game play. Different colored flags are worth a different number of points. Obviously, the higher the points the more difficult the flag may be.

# BOSS LEVELS

Road Runner's Death Valley Rally consists of 5 levels each with 4 sub-levels of game play. The end of each sub-level is indicated by a check point (checkered) flag. Once this check point flag is crossed, Wile E. Coyote's plans will back-fire resulting in hilarious and cartoon-like sequences. Then it's on to the next level of the chase. After passing three check point flags, the fourth sub-level that follows will require you to defeat a boss. More specifically, you must peck to dismantle a huge ACME contraption operated by none other than Wile E. Coyote before it dismantles you. Once you have defeated the boss you will earn 5,000 points and proceed onto the next level of game play.

## TOP SECRET

Throughout the game there are many hidden areas where you can find extra points, power-ups, flags and shortcuts. Upon reaching the bonus screen you may discover that you did not find all of the flags that were available. This is a good indication that they may be hidden in a secret area somewhere in the sub-level. Search high and low to find them. These secret areas could be just about anywhere!

# STAGE TITLES

LEVEL 1: "ZIPPITY SPLAT"

LEVEL 2: "ROCK 'N' RIVET"

LEVEL 3: "TRAIN RUNNERY"

LEVEL 4: "HOPALONG CASUALTY"

LEVEL 5: "QUANTUM BEEP"

# TIPS AND HINTS

- When moving left and right, hold down the turbo speed button and release directional pad to stop on a dime.
- When moving down on a 90° angle, hold down turbo speed button and release directional pad to slow down Road Runner's descent.
- At fast speeds, Road Runner can fly off 90° angles to get to higher, hard to reach areas.
- To save bird seed, tap turbo speed button to maintain top speed rather than holding it down consistently.
- When jumping left and right, you can control Road Runner's direction while in the air to help land on small platforms.
- Look at blueprints carefully. They give you hints on how to destroy the end bosses.
- Watch for road signs. They help Road Runner to find checkered flags and warn of dangerous areas.
- Hit "X" button to abort level introductions.
- Grab "500" points. They get you closer to a free life.
- Getting all the flags in a level will give you a bonus of 10,000 points!
