Here's the Sitch...

Dr. Drakken has teamed up with Monkey Fist and Shego to take over the world! Using their "MasterVillain" Credit Card, they have purchased hundreds of minions forming an army of Monkey Ninjas and Drakken Henchmen. Not only are these creeps trying to take over the world, but they've kidnapped Ron Stoppable!!! They plan to use him as a guinea pig for their super-secret weapon of destruction.

Kim will team up with Rufus as they travel the globe in search of Dr. Drakken's evil lair. She'll have to use the amazing acrobatic moves she learned in cheerleading practice on any enemy that comes her way. Kim will also be able to take advantage of her super-cool, super-spy gadgets like her Hair Dryer Grappling Hook, Lipstick Laser, and Compact Bombs to get her through tough obstacles that are really "so not the drama."

While fighting against Kim's foes, she'll have to collect power crystals. Drakken has left a trail of power crystals all the way to his secret lair. Wade Load has determined that these power crystals store up to 1 million gigawatts of power. Dr. Drakken must want it for his super-secret weapon of destruction! Collect as many of them as you can before Drakken does!

Getting Started

The Title Screen

After the legal information, you'll see Disney's Kim Possible. Press Start to proceed to the Main Menu.

The Main Menu

Use Control Pad Up and Down to highlight Start, Options, or Password, and press the A Button to select.

Start

Starts a new game.

Options

Change the music and sound settings ON or OFF. Change difficulty setting to easy or normal.

Password

Passwords are given whenever you complete a level or enter the Pause Menu. Select this option to enter your password and start the level where you last left off. Use the Left or Right Arrow to move the cursor under the icon you would like to change. Then, press the Up and Down Arrows to scroll through the icons until all the icons match your password. Once your password is complete, press Start to continue.

Playing Disney's Kim Possible

There are eight different levels in Disney's Kim Possible to play, each consisting of numerous challenges and enemies. Your mission will begin at Downtown Middleton where you'll have to make your way through town to get to the High School on time. Kim will also find clues at the end of each level, leading her to the next location in order to find Ron! Kim will travel all over the world battling against Monkey Fist, Shogo and finally Dr. Drakken!

Kim's Room

Press Start to enter Kim's Room. Kim's Room is the only place where you can check out all the movies and Club Banana Mags you've earned throughout the game. You can also check out your password before you quit.

Main Game Screen

Kim can move left and right, jump, duck and attack. Use Kim's cool combo moves to defend herself against Dr. Drakken's evil minions, but pay special attention to Kim's Life Bar. If it's too low, it might be a good idea to find some Snackage Power-ups to increase your health.

Life Bar

This is Kim's health. Falling into dangerous obstacles or getting hit by enemies will drain Kim's Life Bar. "Snackage" and "Naco" Power-ups will restore your health.

Life Counter

"Oh, so not the drama!" Once Kim's Life Bar has gone down completely, she'll become dizzy for a brief moment, then hop into action. But Kim can only do this so many times. Every time Kim's Life Bar goes down completely, she will lose 1 life count from her Life Counter. Find Extra Life icons to collect more lives. If Kim loses all of her lives, she'll have the option of continuing the game from the beginning of the level.

Point Counter

"No Big." Rack up points by battling as many minions as you can! Power Crystals will also increase your point tally. Once your Point Counter reaches 50,000 points, Kim will receive an Extra Life.

Power-Up Gadgets

Wade Rocks! Wade has supplied Kim with Power-Up Gadgets throughout each level. Kim has to remember that each gadget has a time limit! Kim must use her gadgets quickly and effectively so she can zap Drakken's minions or swing past danger. The counter shows which gadget Kim has collected. When the gadget counter begins to flash, Kim will only have a few precious moments before it disappears.

Kimmunicator

Once again, Wade rocks! Wade has provided Kim with a Kimmunicator, which can do virtually anything, from connecting to the Internet to locating one of Dr. Drakken's secret lairs. It's also Kim's best way of getting a hold of Wade. Wade will be able to tell you what your mission objectives are and what your gadgets do.

Oh yeah, and if you see the small Kimmunicator icon appear at the bottom of the screen, definitely Press Select to find out what the latest sitch is. It could be important!

Collectible Items

GADGETS

There are 4 gadgets for Kim to find within the game. Wade will provide Kim with the following gadgets in different levels: Hair Dryer Grappling Gun, Lipstick Laser, Compact Bombs, and a Force Field. Remember! Kim won't be able to use these gadgets forever.

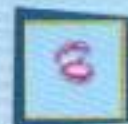

Hair Dryer Grappling Gun

The Hair Dryer Grappling Gun gadget is scattered throughout Disney's Kim Possible in wide-open, easy to find places. It's a cinch. Use this gadget to attach to high posts so Kim can pull herself out of danger or advance past huge obstacles.

Lipstick Laser

The Lipstick Laser gadget acts as a rapid fire shooting device blasting Kim's enemies out of her way.

Compact Bombs

The Compact Bomb gadget will be placed in locations where Kim will have to blast her way through walls and other blockades. These compacts really pack a punch, so don't get too close to the blasts!

Force Field

The Force Field gadget will make Kim an unstoppable force...but not forever. We know she can do anything, but now we really get to see her in action!

Power Crystals

Collect all the Power Crystals before Dr. Drakken gets them. According to Wade, Dr. Drakken is planning to use these crystals to power his super-secret weapon of destruction! The smaller Power Crystals will count as 1 Power Crystal and the larger Power Crystals will count for 5 Power Crystals.

Snackage Power-up

Grab some snackage to restore 50% of Kim's Life Bar.

Naco Power-up

These tasty Nacos have gone global. They're located in every level! Each Naco restores Kim's Life Bar to 100% good health to keep Kim golden.

Extra Life Power-up

Collect these items to increase your Life Counter.

Club Banana Mags

A total of 8 Club Banana Mags are hidden throughout the game. Collect them all to unlock special Kim shots from Disney's Kim Possible TV Series!!

Clips

Unlock hidden clips that are actual sequences from the hit TV series Disney's Kim Possible on your Game Boy® Advance!

Dr. Drakken & Mini-Bosses

Shego

Shego is Dr. Drakken's evil partner in crime. While Dr. Drakken's the "stand-back-and-yell" kind, Shego is the fighting kind. Look out for her clawed gloves that shoot destructive green rays. Sure, green rays are "in" now, but what about next season?

Monkey Fist

Lord Monkey Fist is a world famous explorer and highly respected scholar; unfortunately, he spent his family fortune on radical genetic mutation to become part monkey! He has taught ordinary monkeys the way of the ninja and created an entire army of monkey ninjas to fight off Kim Possible!

Doctor Drakken

Dr. Drakken is a mad scientist bent on world domination! He will stop at nothing to defeat Kim Possible! His twisted mind is able to think of the most hideous tricks and traps. He travels with the extremely dangerous agent Shego. Plus, his breath stinks.
